

## EASTCOMBE AFC COVID RISK ASSESMENT

Covid Officer – Kenny Smith

1. We plan to use our changing rooms using a one way system. This is clearly marked on the entrance door and on the floors. Social distancing signs are placed around the building. Hand sanitiser supplied at the entrance and exit,
2. We will accommodate away teams by allowing them to use the changing rooms. We have marked out clearly on the floor where players can change using social distancing measures. This allows 8 players to change as quickly as possible.
3. The showers will be available for 4 players max so it will be up to individual clubs if they wish to use them. The Away team can use them first but there will be a time limit on usage (no more than 3mins per group of 4) This information will be handed out to away team on arrival
4. The referee will have a room on their own with a working shower.
5. All players will receive a self covid assessment warning them to stay away if they have any symptoms
6. We will ask away team subs and management to stand on opposite side of the pitch during game

Regards

Kenny Smith (Club Secretary)
